

## FREE SESSION 1: ICHTHYOLOGY

Bonito, 22<sup>nd</sup> June 2012 (Friday)

**Chair: Lisa Davenport** (Duke University, USA)

### TALKS (Room Kadiwéu 2, 16h30-18h00)

- FS01.CO.01. **Abundance partition and life-history evolution of tropical stream fishes in a microhabitat scale.** *Helder Mateus Viana Espirito Santo*
- FS01.CO.02. **Distribution, richness and population densities of subterranean fishes from Bodoquena plateau caves, Mato Grosso do Sul, Brazil (Teleostei: Siluriformes).** *Livia Medeiros Cordeiro-Borghesan*
- FS01.CO.03. **Distribution and occupancy of non-native species in the upper Paraná river floodplain.** *Hugo Message*
- FS01.CO.04. **Lateral migration of fish between an oxbow lake and an Amazonian headwater river.** *Lisa Davenport*
- FS01.CO.05. **Fishers' local ecological knowledge identify ecological functional groups of freshwater fishes in a large Brazilian Amazon river.** *Renato Silvano*
- FS01.CO.06. **Freshwater priority setting of the Amazon basin.** *JC Riveros Salcedo*

### POSTERS (Karuha Space, 15h30-16h30)

- FS01.P.01. **Ecomorphological patterns of the fish assemblage in Tidal rockpools in the Amazonian coastal zone.** *Bruno Eleres Soares*
- FS01.P.02. **Growth pattern of the four-eyed fish *Anableps microlepis* Müller & Troschel, 1844 (Cyprinodontiformes: Anablepidae) in the Amazon Coastal Zone, Brazil.** *Fernanda Paz*
- FS01.P.03. **Towards a non-lethal fish sampling technique in neotropical streams: comparing electrofishing, clove oil, and rotenone.** *Luc Allard*
- FS01.P.04. **Morphological responses of a tropical fish to river damming.** *Fernanda de Lima Camilo*
- FS01.P.05. **Phytosociological survey of the Island Ball Seven Teles Pires in the river city Alta Floresta (MT).** *Daiana Oliveira*
- FS01.P.06. **Impacts of shrimp farms in mangrove areas of Brazil.** *Carla Roberta Gonçalves Reis*
- FS01.P.07. **Age structure and growth of *Mimagoniates microlepis* (Characidae, Glandulocaudinae) from an Atlantic forest rainforest stream, Paraná (Brazil).** *Marcelo Braga*
- FS01.P.08. **Effect of environment on the composition of the parasitic fauna of *Hoplosternum littorale* (Siluriformes: Callichthyidae) collected in two localities of Peixe river, middle Tietê river (São Paulo, Brazil).** *Reinaldo Jose da Silva*

**FS01.P.09. Distribution and richness of the ichthyofauna in sub basin of the Ipixuna river,  
Mid Madeira (Western Amazon, Brazil). *Marcelo Rodrigues dos Anjos***
