

FREE SESSION 11: CONSERVATION AND SUSTAINABLE DEVELOPMENT

Bonito, 22nd June 2012 (Friday)

POSTERS (Karuha Space, 15h30-16h30)

- FS11.P.04. **The silence degradation in the water paradise: Sedimentation in caves of Serra da Bodoquena karst area, State of Mato Grosso do Sul, NW Brazil.** *Livia Medeiros Cordeiro-Borghezán*
- FS11.P.06. **Conservation genetics of tropical species.** *Agostinho Antunes*
- FS11.P.09. **Helping the enemy: Native nurse trees facilitate aliens to invade Brazilian Semi-Arid Shrublands.** *Laura Martina Fernández*
- FS11.P.10. **Species Richness and Endemism of Cave Bats and Herpetofauna in Siargao Island Protected Seascape and Landscape, Philippines.** *Olga Nuñez*
- FS11.P.11. **Fractal models of animal foraging in tropical forests.** *Octavio Miramontes*
- FS11.P.12. **Genetic diversity and forest cover analysis of twenty natural populations of *Euterpe edulis* Mart. in the state of Santa Catarina, Brazil.** *Caroline Cristofolini*
- FS11.P.13. **Impact of the regional network of conservation educators in Albertine Rift on the sustainability of biodiversity conservation in the region.** *Erasmé Uyizeye*
- FS11.P.14. **Valuing Botanic Gardens: a Case Study in Brazil.** *Fernando Resende*
- FS11.P.15. **Morphology of fruit and seeds of *Dipteryx odorata* (Aubl.) Willd (Fabaceae).** *Daiane Oliveira*
- FS11.P.16. **Distribution Range of *Thinouia myriantha* Triana & Planch (Sapindaceae).** *Márcia Cléia Vilela Santos*
- FS11.P.17. **Characterization of the genetic diversity of *Cedrela fissilis* in the Lagoa do Peri Municipal Park on the Island of Santa Catarina, Brazil.** *Caroline Cristofolini*
- FS11.P.18. **Genetic diversity and landscape analysis in nine natural populations of *Cedrela fissilis* Vell. in the Deciduous Forest of the state of Santa Catarina, Brazil.** *Felipe Steiner*
- FS11.P.19. **Spatial distribution and reproductive dynamics of freshwater turtles in Araguaia River (Goieas, Brazil).** *Anna Claudia Santos*
- FS11.P.20. **Rich and rare ain't the common share. Describing biodiversity and informing conservation practices for South American anurans.** *Fabricio Villalobos*
- FS11.P.21. **Using the soil fauna as bio-indicator of different recuperation processes of mining areas in Porto Trombetas, Pará State, Brazil.** *Fernanda de Lima Camilo*
- FS11.P.22. **Do national red lists induce prioritization of research on endangered species? A case study on Brazilian vertebrates.** *Tais de Fátima Ramos Guimarães*
- FS11.P.23. **Short-Term Effects of Visitor Trampling on Aquatic Macroinvertebrates in a Brazilian Ecotourism Karst Region.** *Suzana Escarpinati*

- FS11.P.24. **Evaluation of the use of commercial techniques of Bromeliad cultivation to enable it us in environmental conservation: Preliminary results.** *Michelle Cristina Sampaio*
- FS11.P.25. **Conservation of palm forests in Northwestern Argentina: prioritization criteria.** *Natalia Politi*
- FS11.P.26. **Conservation by use of Caraguatá (*Bromelia antiacantha*): production of fruits and management of natural populations in the Araucaria Pine Forest.** *Samantha Filippon*
- FS11.P.27. **Acting against “savannization” process: a northern Amazon study case.** *Fabiana R. Couto-Santos*
- FS11.P.28. **What Can Dragonflies Tell Us About the Brazilian Forest Legislation?** *Marciel Rodrigues*
- FS11.P.29. **Occurrence of *Aechmea nudicaulis* in the urban environment of Rio de Janeiro municipality.** *Ana Carolina Pitta*
- FS11.P.30. **Effective population size for seventeen populations of *Ocotea catharinensis* Mez. (Canela preta) in the state of Santa Catarina.** *Roberta Duarte*
- FS11.P.31. **Good practices of the Ouricuri palm tree: productivity analysis of fruits of managed palm trees in the Brazilian semi-arid.** *Flávia de Barros Prado Moura*
- FS11.P.32. **Effect of species abundance and seasonality on hunting practices in the Rio Xingu Extractive Reserve, Terra do Meio, Brazilian Amazon.** *Rossano Marchetti Ramos*
- FS11.P.33. **Fauna monitoring in Pará (Brazil): Relationships between fauna and enterprise in a protected area.** *Bruno Henrique Mattiello*
- FS11.P.34. **Low Primate Diversity and Abundance in Northern Amazonia and Its Implications for Conservation.** *Antonio Rossano Mendes Pontes*
- FS11.P.35. **The Impact of smallholders Vs. Large-scale companies in oil palm plantation expansion in Sumatra utilizing the 2000 & 2010 Land Cover maps of Insular Southeast Asia.** *Sinan Abood*
- FS11.P.36. **Is extinction forever?** *Michael Patten*
- FS11.P.37. **Invasion biology and unmatched niches: What do they say?** *Davi Mello Alves*
