

FREE SESSION 9: FOREST RESTORATION

Bonito, 19th June 2012 (Tuesday)

Chair: Julieta Benitez-Malvido (UNAM, Mexico)

TALKS (Room Kadiwéu 2, 16h30-18h00)

16h30-16h45 (FS09.OC.01) **Gender matters! A clue to untangle regeneration processes and mechanisms in tropical dry forests.** *Julieta Benitez-Malvido*

16h45-17h00 (FS09.OC.02) **Nurse plant effect is driven by shade in a subtropical coastal dune: implications for restoration practices.** *Camila Castanho*

17h00-17h15 (FS09.OC.03) **Short-term vegetation regeneration after fire in tropical and subtropical grasslands.** *Alessandra Fidelis*

17h15-17h30 (FS09.OC.04) **Nurse plants are not enough: Insights on restoration of Brazilian semi-arid vegetation.** *Gustavo Brant de Carvalho Paterno*

17h30-17h45 (FS09.OC.05) **Restoration of *Mauritia flexuosa* swamps in the Peruvian Amazon.** *Christopher Miller*

17h45-18h00 (FS09.OC.06). **Multitaxa diversity in restored rainforests.** *Gislene Ganade*

POSTERS (Karuha Space, 15h30-16h30)

FS09.P.01. **Landscape-level regeneration of landslides in the Sierra de Las Minas of Guatemala.** *Giomara La Quay-Velázquez*

FS09.P.02. **Soil restoration potential of four tree species in a seasonal tropical dry forest in Morelos, Mexico.** *Eliane Ceccon*

FS09.P.03. **Restoration of coastal sand dune vegetation degraded by buggys in Brazil.** *Leonardo Henrique Teixeira Pinto*

FS09.P.04. **Short-term natural regeneration in restoration areas in southern Brazil.** *Débora da Gama Ettrich*

FS09.P.05. **Litter influence on nutrient dynamics and regeneration of native species under eucalipt plantations.** *Dora Maria Villela José*

FS09.P.06. **Tree community regeneration along an environmental gradient in a montane *Araucaria* forest in southern Brazil.** *Pedro Higuchi*

FS09.P.07. **Diameter structure of *Cupania vernalis* Cambess (Sapindaceae) regenerating compartment in a mountain semideciduous forest in Lavras – MG.** *Carlos Delano Cardoso de Oliveira*
